ASSIGNMENT OF U.S. PATENTS

Effective August 25, 2003

WHEREAS, HONEYWELL INTERNATIONAL INC., a Delaware corporation, having a place of business at 101 Columbia Road, Morristown, New Jersey 07962, previously known as AlliedSignal Inc., and prior to that, Allied-Signal Inc. (hereinafter "Assignor"), is the sole owner of the entire right, title and interest in and to the United States Letters Patent described in Schedule A, attached hereto and made a part hereof (the "Patents"); and

WHEREAS, Metglas, Inc., a Delaware corporation, having a place of business at 440 Allied Drive, Conway, South Carolina 29526 (hereinafter "Assignee") is desirous of acquiring the entire right, title and interest in and to the Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor by these presents does hereby sell, assign and transfer all right, title and interest in and to the Patents, the inventions disclosed therein, all divisions, continuations and continuations-in-part thereof, and all patents issuing on any of the foregoing, and all reissues, reexaminations and extensions thereof, including the right to apply for Letters Patent in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise, all said rights to be held and enjoyed by the Assignee for its own use and for the use of its successors, assigns or other legal representatives, to the full end of the term for which the Patents will be granted, reexamined, extended or reissued, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made, and including the right to recover for past infringement.

Assignor does hereby authorize and request any official whose duty it is to issue Letters Patent, to issue any and all Letters Patent which may be granted upon any of the said applications, to said Assignee, or its successors or assigns, and to record the Assignee as the owner of the Patents.

Assignor further agrees that Assignor will, without demanding any further consideration therefor, at the request but at the expense of Assignee, do all lawful and just acts, including the execution and acknowledgment of instruments, that may be or become necessary for obtaining, sustaining, reexamining or reissuing the Patents, and for maintaining and perfecting Assignee's right to the Patents.
